Agency for Toxic Substances  
and Disease Registry  
Atlanta GA 30333

AUG 20 1996

EPA Region 5 Records Ctr.

Mr. Gary J. Anderson  
Area Director  
Occupational Safety and Health Administration  
1600 167<sup>th</sup> Street  
Suite 12  
Calumet City, Illinois 60609

Dear Mr. Anderson:

The Agency for Toxic Substances and Disease Registry (ATSDR) recently notified you of our concern for radiological contamination at 161 E. Grand Avenue in Chicago, Illinois. This letter is to notify you of two errors in that letter dated August 12, 1996.

These errors are as follows:

In the third paragraph on the first page, the phrase "several public parks" should have read "a public park."

On the second page in the paragraph beginning with "In discussions with NIOSH", the third line in that paragraph should read "interpreted as the amount of Rn-222 and Rn-220" not Ra-222 and Ra-220 as written.

We apologize for the error.

Sincerely yours,

Paul A. Charp, Ph.D.  
Senior Health Physicist  
Division of Health Assessment  
and Consultation
